

# Edge Portal Premium

Your practice anywhere and everywhere. Don't limit your patients' and professionals' access to your office. Let them get information they need whenever and wherever they are.

## Convenient

Edge Portal is a convenient online one stop shop for your patients, responsible parties, and consulting professionals. Allow referring dentists to pull up shared patient photos, documentation, treatment chart information, and expected appliance removal dates.

## Accessible

With Edge Portal your staff will spend less time on the phone answering questions about accounts and appointments. Patients and responsible parties will be able to check the time, procedure, and reminder of their next appointment. They can even check their balance and make credit card or ACH payments.

## 24/7

Your office has to close at some point, let your patients, responsible parties, and other consulting professionals stay in the loop even after you leave for the day.

## Mobile

Whether on their smartphone, tablet, or computer, Edge Portal can be viewed from the device that is convenient for your patients and professionals.

Edge Portal Premium has been a fantastic resource for our patients and their families. It provides 24/7 access to appointment and financial information, as well as photos and X-rays when a phone consult is necessary and instantly posts online payments to patients' accounts in Edge.

- Dr. Keith Kohrs, Aurora, CO

## Edge Portal Premium

A modern office needs a modern way to work. Give your patients, responsible parties, and consulting professionals customized access to information over the Internet via computer, tablet, or smartphone.
